

33 Beach Road

Hingham, MA

Brief narrative:

We propose to construct a 10' x 14' kitchen addition with a bedroom above. The mudroom area is to be renovated by removing substandard foundation and replacing with 12" sono tubes with big feet all in the same footprint. We plan on installing 5 12" for kitchen addition and 3 new footings under existing mudroom footprint. And 3 10" footings beneath the porch.

This is all on the street side of the house of the home, facing East, and very near 100' away from the closest resource.

Our first plan (still included for reference) showed a foundation wall which would be engineered to comply with flood zone requirements. I.E. vents or panels to allows for passage of water.

Thank you,

Katy and Garret Daigler
